

## **BECKY BLOOMFIELD TESTIMONIAL VIDEO TRANSCRIPT**

Hi, I am Becky Bloomfield. During my many years of experience with a leading product distribution company in the field of early care and education, I have seen firsthand the need for quality, affordable professional development opportunities. ProSolutions Training meets these needs for both new and seasoned professionals through coursework that is developed especially to meet everyday challenges faced in a child hood classroom and the family child care environment. Through an easy to use online format, all that is required to register with ProSolutions Training is a valid email address and internet access. This eliminates the hassle and expense of having to travel away from work or home for training. I highly recommend ProSolutions Training as a solution to your professional development needs.
