INTRODUCTION

Welcome! This book will share the five big ways online training can make quality professional development a breeze for your center.

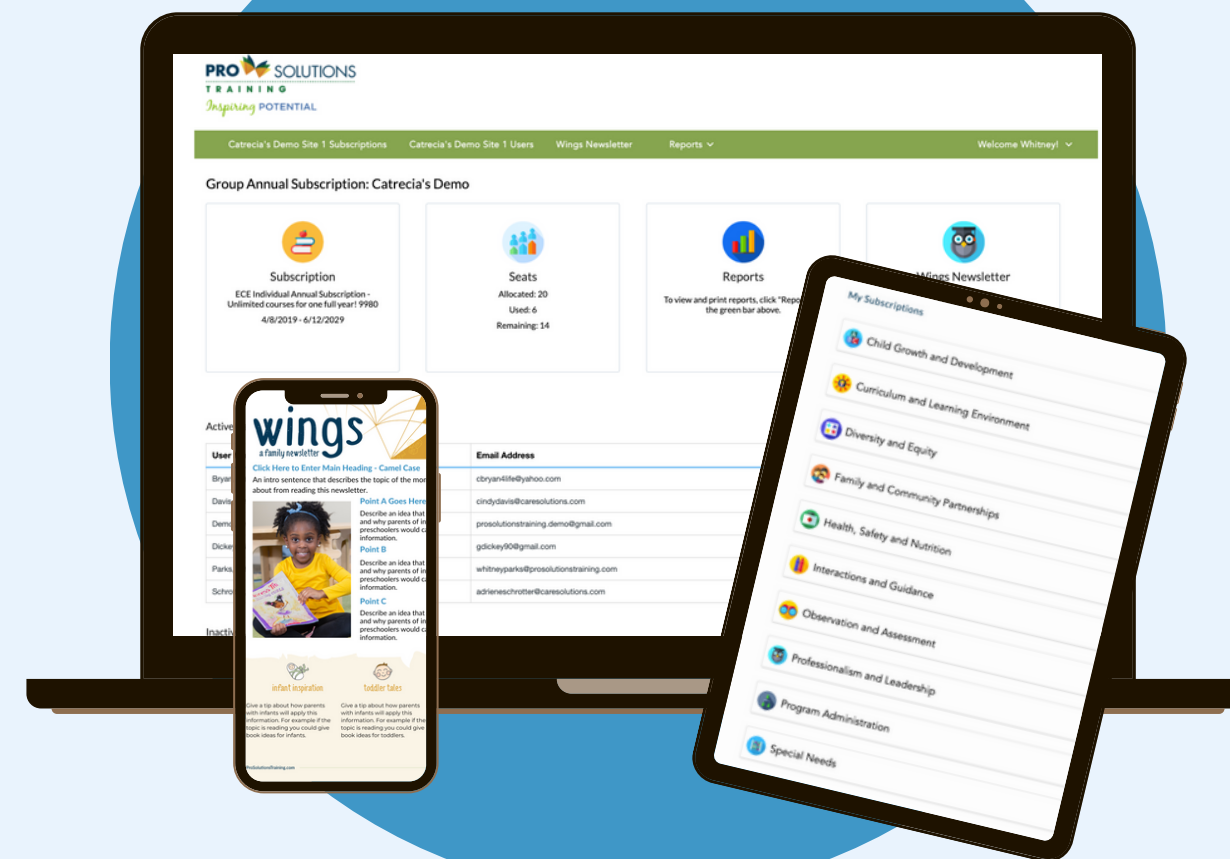

Based on 30+ years in the industry, we can certify that online training is the best way to maintain professional development and meet ongoing training requirements.

WHY YOU WANT THE PERFECT TRAINING

There are many reasons why you want the perfect training solution for your staff...

- Most states require 10-16 hours of continuing education every year
- Having all your staff on the same page keeps you organized to maintain compliance
- Help your teachers gain the knowledge and skills they need to create positive classroom environments

NAVIGATING THE ROLES

Teacher Overview

The Group Subscription allows each user access to 200+ online course hours. Users can take courses and earn certificates at their own pace, and on their own schedules, with access 24/7.

Admin Overview

Meanwhile, the group administrator can monitor their progress and download reports detailing their activity. The administrator can also add or remove staff from the platform as needed.

01

INCREASE YOUR STAFF'S KNOWLEDGE AND ABILITIES

It's key your staff has access to courses of interest at their fingertips – and can meet training requirements in a flash.

We have over 200 course hours available on a variety of topics. And our administrator dashboard makes it easy for you to assign specific courses for individuals, or assign courses to your entire team.

EASILY MEET TRAINING REQUIREMENTS

#1

Get everyone working from the same knowledge base.

Make sure all of your teachers are on the same page to maintain licensing compliance and use developmentally appropriate practices.

All our courses provide IACET Continuing Education Units (CEUs) and certificates at no extra cost.

We also work hard to maintain state approvals for our courses.

02

SIMPLIFY YOUR BUSINESS

We know how busy it can be running a child care program. That's why we designed the group subscription to be a one-stop shop. Meet all your center's professional development and training needs in one place.

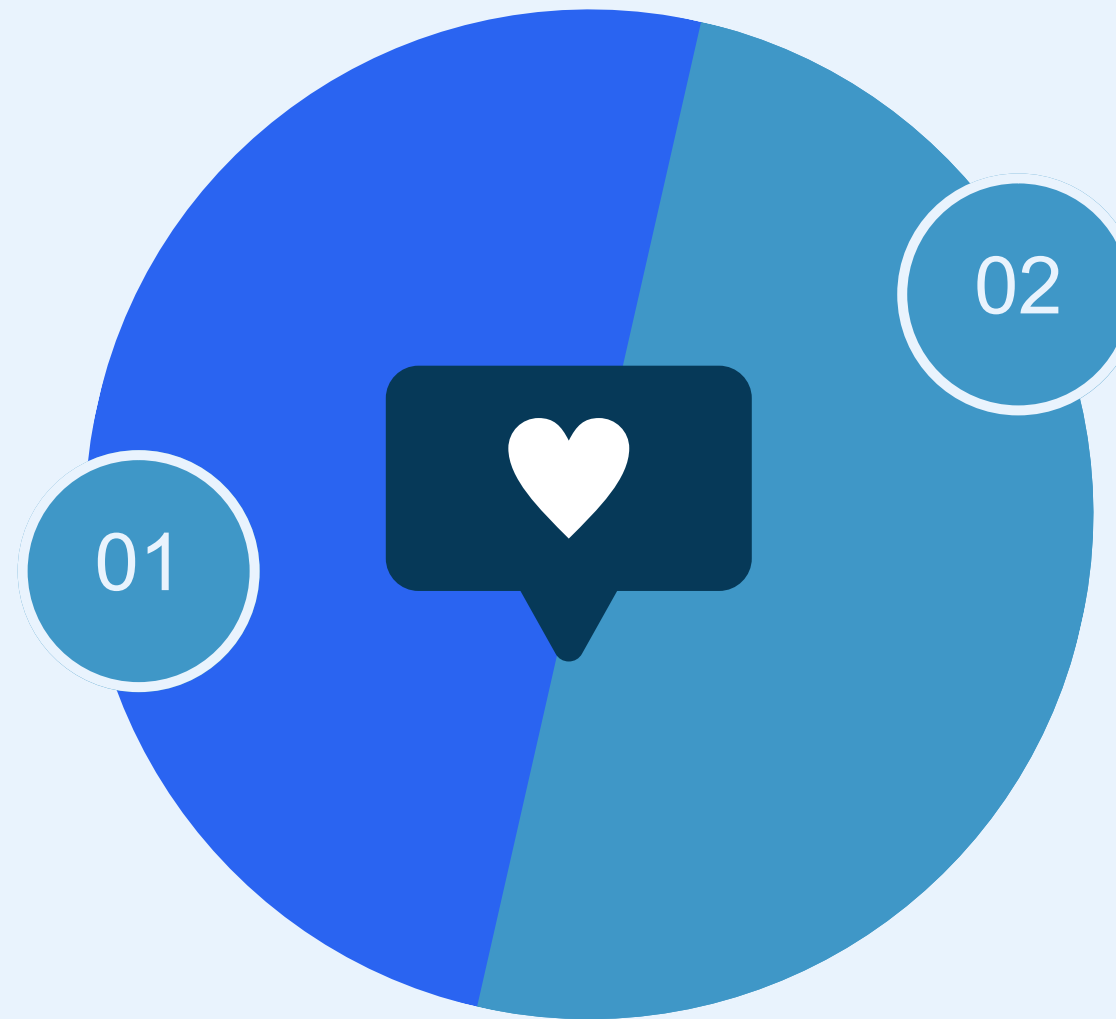

#2

IT'S SIMPLE

Slash your stacks of paperwork. Start training and tracking in an easy-to-use online platform.

Track individual performance. View and download certificates and transcripts. And run reports all from one place.

Stop searching for and scheduling trainers or planning for conferences to get your staff's professional development hours.

Our courses are conveniently available online 24/7/365. That means they can be taken at any place and time. (In your PJs at your kitchen table? Go for it!)

#2

03

GET TOP-NOTCH CONTENT

ProSolutions Training offers a rich curriculum, with course content developed based on more than 30 years of experience in early care and education and human services, combined with current research.

#3

WHY IT'S TOP-NOTCH

The What	The How
We do our research (a lot of it)	Courses are developed by in-house staff with advanced degrees. They conduct industry industry research to uncover trends and key issues that can be improved with training.
Our sources are reputable	Course content is vetted by subject matter experts.
Your staff will truly be learning	Each course includes specific strategies you can take back to your classroom immediately.
Get free and useful tools	The resources section of every course includes downloadable materials - from helpful book lists to pertinent web links - for deeper insights and more information about the content areas.
We have a proven track record	There is a consistency of message and language across all ProSolutions Training courses. Courses are regularly reviewed for best practices and policy updates.

04

KNOW YOU'RE IN GOOD HANDS

ProSolutions Training is a company developed out of a long tradition of excellent customer service. Our courses provide a seamless user experience from beginning to end.

#4

HIGH-QUALITY LEARNING

01

Get More Than Just Answers

Interactive learning applications allow students to check their learning during the course, much as a student would answer questions in class and receive feedback on their answers from a teacher.

03

Relatable Content That Sticks

Courses teach concepts that apply to everyday situations. Scenarios are straightforward and applicable to the "real world" in the setting of a classroom. And courses may include video and interactive games.

02

Fall in Love With Learning

Your staff will have access to all the additional content their hearts desire through our resources section. They can navigate to it from every screen in the course.

04

Discover What You Already Know - And Save Time

Each course starts with a pre-test, which helps staff assess what they already know and areas to focus on during the course.
